

NH Monthly Indicators

January 2026

U.S. existing-home sales climbed 5.1% month-over-month and 1.4% year-over-year to a seasonally adjusted annual rate of 4.35 million units, the strongest pace in nearly three years, according to the National Association of REALTORS® (NAR). Lower mortgage rates and slower home price growth helped spur buyer activity, and sales increased month-over-month in every region. On an annual basis, sales rose in the South, held steady in the West and Midwest, and declined in the Northeast.

New Listings increased 0.8 percent for single family homes but decreased 19.6 percent for townhouse-condo properties. Pending Sales increased 9.1 percent for single family homes and 8.9 percent for townhouse-condo properties. Inventory increased 10.1 percent for single family homes and 5.4 percent for townhouse-condo properties.

The Median Sales Price was up 7.5 percent to \$540,000 for single family homes but decreased 3.8 percent to \$410,000 for townhouse-condo properties. Days on Market increased 4.8 percent for single family homes and 27.8 percent for townhouse-condo properties. Months Supply of Inventory increased 7.7 percent for single family homes but increased 5.9 percent for townhouse-condo properties.

Nationally, there were 1.18 million homes for sale heading into January, an 18.1% decline from the previous month but 3.5% higher compared to the same period last year, representing a 3.3-month supply at the current sales pace, according to NAR. Meanwhile, the median existing-home price rose 0.4% from a year ago to \$405,400, reflecting a continued moderation in national price growth.
